Ladbrooks School

Parents' consent for activities away from school for 2012

From time to time teachers arrange learning activities away from school to provide students with opportunities that can't be provided on the school site.

The school requires parental consent for these activities.

To avoid having to collect separate consent forms for each activity we ask you to give general consent for trips and visits in the local area.. These will usually involve travel either in parents' cars or on a bus.

In general parents will be informed by notice at least 3 days before the trip of the place(s) to be visited, the purpose of the activity, arrangements such as transport, times of departure from and arrival back at school, and any costs involved. Parents can contact the school if they have concerns about the activity, and can withdraw their consent at any time.

The school will still separately seek parents' consent for trips and activities including school camps that:

- involve travel out of the local area (ie beyond Christchurch, Ellesmere)
- would be considered more hazardous than activities at school (eg visits to factories, trips on boats, water activities other than at a swimming pool)

If you have any questions about this general consent please contact me or the class teacher before signing.

Sean Bailey
